

# The Angelicscalliwag's Magna Charta

- 1) No child should be out of bed until 7-o'clock to ensure everyone gets the sleep they need.
- 2) Every person must do their fair share of household chores according to their age and ability.
- 3) Every one must put shoes away as soon as they are taken off
- 4) Parents will protect and look out for each member of the family. Older siblings will look out for and protect younger siblings
- 5) There will be no selfishness within the family. If everyone thinks about the needs of the other members of the family, everyone's needs will be met without resorting to selfishness.
- 6) There will be no meaningless bickering between siblings. Ever. Heated discussions are fine.
- 7) No child may date until 16. Once 16 they may date but not alone, only in groups for accountability.

We, the undersigned, on the 1<sup>st</sup> day of the thir month in the yea 2014, do solemnly swear to keep this Charta to the best of our ability:
